Key Principles of MWC Culture & Values

Milwaukee Water Commons is a cross-city, cross neighborhood network that fosters connection collaboration and broad community leadership on behalf of our common waters. We promote stewardship, equitable access and shared decision making for our shared waters. We advocate on environmental justice issues, water justice, climate justice, and social justice. Our programmatic work is neighborhood based, although our organizational reach includes communities throughout the Great Lakes Region. We strive to build a multi-racial, multicultural organization and an anti-racist environmental movement on behalf of our waters.

Milwaukee Water Commons organizes under four frameworks: The Commons, Collective Impact, Environmental Justice and Community Engagement. We believe environmental work– has the greatest impact when it adopts an intersectional approach. By that we mean we must inclusively consider the connections between social and environmental systems, recognizing that vulnerability is often experienced as multiple compounding challenges that cannot be separated. To arrive at justice these challenges must be addressed simultaneously. We believe the community must be at the center of envisioning and decision-making about our shared waters.

We are creating a workplace with guiding principles of integrity, accountability, diligence, perseverance, and discipline.

The successful employee must have the ability to demonstrate and apply MWC values and frameworks which are embedded in all organizational roles. Applicants must evidence their values as part of the application process.
